Professional Summary

To obtain a position in the IT field with a forward-thinking organization where I can enhance my skills and knowledge, and grow into a proficient programmer. I am committed to working diligently and contributing to the organization's success through my technical expertise and logical thinking.

Skills

- Languages/Frameworks: C#, JavaScript, React, HTML5, CSS
- Database: SQL Server
- Tools: Visual Studio, Postman
- Others: XML Authoring (Arbortext)

Professional Experience

Essel Synerg Tech Pvt Ltd, Bengaluru

Role: Software Engineer

Duration: 4 Years (Present Working)

Worked in the IT industry with 4 years of experience in analysis, design, development, and implementation of Windows and web-based applications using Microsoft technologies.

Project 1: Interactive Electronic Technical Manual (IETM)

Technologies Used:

- **Frontend:** HTML5, CSS, JavaScript
- **Backend:** C#
- **Database:** SQL Server

Project Scope:

The project involved the design and development of a technical manual for a government organization in the Electronics Engineering domain. The solution included two main modules—Admin and Viewer.

- The **Admin module** enables the addition of various manuals into the system, manages access control, and assigns privileges to users based on data access levels.
- The **Viewer module** provides secure access to the technical manuals for end users based on their roles.

The system was designed to ensure efficient manual management and easy accessibility of technical documentation within the organization.

Project 2: AI Image Generation

Role: Front-end Developer

GitHub: <https://vinoth9788.github.io/ai-image-generator/>

- Developed an interactive **AI Image Generation web application** frontend.
- Built responsive UI using **React.js** and **Tailwind CSS** for modern, clean design.
- Integrated smooth **animations and transitions** to enhance user experience.
- Implemented **API integration** for image generation requests and dynamic rendering.
- Optimized performance for **cross-browser compatibility** and **mobile responsiveness**.
- Followed **component-based architecture** for scalability and maintainability.

Project 3: Personal Portfolio

Role: Front-end Developer

GitHub: <https://vinoth9788.github.io/portfolio/>

- Developed a responsive portfolio website using **React.js**, **TypeScript**, **Vite**, and **Tailwind CSS**.
- Implemented component-based architecture with reusable UI components and modern frontend practices.
- Integrated **Framer Motion** for smooth animations and interactive user experience.
- Optimized application performance, responsive design, and cross-browser compatibility.

Education

- **Master of Computer Applications (MCA)** Bharathidasan University — 2022
Percentage: 76%
- **Bachelor of Computer Applications (BCA)** Bishop Heber College — 2020
Percentage: 67%
- **(HSC) S.S.V. Hr. Sec. School** — 2017
Percentage: 71%
- **(SSLC)** Beschi Hr. Sec. School — 2015
Percentage: 78%
